

2-2 Triangle Angles Sum and Isosceles Triangle Theorems

Find the measure of each angle indicated.

1)

2)

Solve for x .

3)

4)

Find the measure of angle A.

5)

6)

Find the measure of each angle indicated.

7)

8)

9)

10)

Find the value of x .

11)

12)

13)

14)

15)

16)

17)

18)

19)

20)

21)

22)
